	Job Placement Rate	89%
Bachelor of Science in Accounting	Retention Rate	93%
	Job Placement Rate	94%
Master of Science in Business Communication	Retention Rate	93%

**Indicators Used**

<b>INDICATOR</b>	<b>DESCRIPTION AND HOW IT WAS CALCULATED</b>
Retention Rate	<p>Bachelor’s degrees: The retention rate is calculated by dividing the program’s enrollment from the previous year into the number of those students who either completed their program through graduation or persisted into the 2018-19 academic year.</p> <p>Master’s degree: The total number of students admitted in all six sessions of 2018-19 less any student (regardless of admit date) who withdrew, were dismissed, or are inactive will be at least 90%. Students graduating from the program are not included in this calculation.</p>
Job Placement Rate	<p>Job placement rate is calculated by determining if students from the previous year’s graduates are currently employed in their field of training. The percentage is based only on students where we were able to find the information through self-reporting or LinkedIn.</p>
